The logo

Gradient: Blaze Orange to Blazing Flame, top-left to bottom-right. Flat logo: Blazing Flame. White logo: no ink. Black logo: K 100 only.

* CMYK values are conversions from sRGB, not proofs. Each is the closest colorimetric match (dE2000) within the standard's ink limit: North America, U.S. Web Coated (SWOP) v2; Europe, Coated FOGRA39 (ISO 12647-2:2004). Ask your printer to proof on their own press.

** Nearest PANTONE Coated by dE2000 against Pantone's published sRGB values: nearest match, verify against a physical guide before specifying a spot colour.

Contrast: WCAG 2.x ratio against white and against Shadow Grey. 3:1 is the minimum for logos, icons and large text; body text needs 4.5:1. Anything under 3:1 is flagged in red.

*** Website check (css/root-square.css): 8 of 10 colours match. Shadow Grey is #1B1825 on the site (--ink, dE 0.63, not visible); Light Blue is #D3E7EE on the site (--sky, --line, dE 7.87, visibly different).
